

Annual Spring Meeting - June 18, 2022

REVIEW ROLE OF A WPCA AS PER CT STATUTES

ESTABLISHED OLSBA WPCA VIA ORDINANCE IN 2012

- Identify/document wastewater issues
- Evaluate realistic options to address pollution (site condition dependent)
- Obtain stakeholder approval (resolution)
- Adopt remediation plans
- Design, build, construct, operate, and maintain required facilities
- Fiduciary responsibility to implement the most viable and cost-effective and economically feasible solution
- Demonstrate due diligence in the eyes of our regulators
- Keep everyone informed – in our case, our fellow OLSBA neighbors and friends

Like the BOG, the WPCA is all volunteers; no staff, no office, no administrative overheads
