

8/16/26

Members: A brief update on the general contractor's tree trimming work in OLSBA.

The tree trimming sub-contractor (Henry's) commenced its work on Friday (8/5/26) on Canty Lane. Work is coming to an end on Canty Lane although some additional time there may be required.

The contractor is expected to commence the trimming of designated trees on our streets north of Rt . 156 this week, with the possibility that tree work on our streets south of Rt. 156 may begin later this work.

A reminder that the tree contractor's work schedule is 7:00 am to 3:00 pm

Again, any questions may be conveyed to our engineering project manager, Mike Nelson at Mike.Nelson@fando.com.

Thank you for your interest in this project
